MICROLOGIX DISCONTINUED? DON'T WAIT FOR IT TO FAIL.

Upgrade your MicroLogix.

To an Allen-Bradley Micro800 PLC, starting at $1,995*.

Rockwell has discontinued most MicroLogix models, and parts are getting scarce. Micro800 is the replacement, and it programs with Rockwell's free software.

Since 2004: 22 years in business **Our own union electricians** **3,500+ jobs completed**

SHIP-READY

Starting at **$1,995***

We convert. You install.

- Your program converted and loaded
- Bench-tested with simulated I/O
- Wiring cross-reference and checklist
- 30 days of phone and remote support

Ships anywhere in the U.S.

INSTALLED

Starting at **$3,995***

We do it all.

- Everything in Ship-ready
- One-day on-site cutover by our crew
- Updated drawings and documentation
- Training for your maintenance team

3 or more units: starting at $3,795 each*

MicroLogix 1500, SLC 500 or PLC-5? We migrate those to Logix too.
On Siemens or another brand? We convert to Allen-Bradley.

Free assessment

1. **Send your program,** or we'll upload it for you
2. **We convert and bench-test** it in our Terre Haute shop
3. **You install it,** or our crew cuts it over in a day

***Starting prices are for one Micro820 20-point controller** replacing a MicroLogix 1000 or 1100. Larger controllers, expansion I/O and plug-ins are quoted separately. On ship-ready orders, field wiring, I/O checkout and machine safety are the customer's responsibility. Installed price is for a weekday cutover within about an hour of Terre Haute. Prices confirmed at order.
